

Power Factor Correction Device (PFCD)

Energy Savings Device for Overall Electrical Consumption

- **Energy Savings** ~ Reduce Energy Consumption up to 25%
- **Increase Equipment Life** ~ Reduce Heat, Eliminate Spikes and Surges
- **Increase Efficiency** ~ Reduce Harmful Effects from Electro-Magnetic Fields (EMFs)
- **Environmentally Responsible** ~ Reduce Carbon Footprint

Tested and Approved By:

Cleaner Greener / RoHS Certified, U.S. Government certified, UL listed, CSA Approved, LEEDS Certified, Honeywell tested, NASA tested and used

Made in USA
